Subject: Fairfield Aggregate Yard Meeting

Categories: Record Saved - Shared

The Supplemental Remedial Investigation Report and Screening Level Ecological Risk Assessment reports have been completed and distributed electronically. At this point, the Town would like to meet with regulators to discuss findings to date, remediation of the site, and other activities that will be required to file compliance statements to close out the Notices of Violation that have been generated.

At this point, could this meeting be held in person or will it need to be held virtually?

We would like to target the first week in August, between August 2 and 6, to hold the meeting.

Please indicate if you can attend in person or if virtual is required or preferable and if the proposed week could work for your schedule. If there are dates during the first week of August that you cannot attend, please indicate that as well. Once enough responses have been received, we will send out a meeting poll so that we can establish a time and date.

Thank you.
